Bradford, Ont. February 28th 19 31

Workemen's Compensation Board.

Toronto Ont

Gentlemen:-

We have just learned that one of our Men who was employed by the Water Commission or Committee of our Council on the Water Works installation which we have just completed, was injured by hitting his foot with a Pick, at that time which was December 22nd he was engaged in fixing a leak on one of the mains, and apparently this was not going to amount to anything, he went to one of our Doctors Dr Judge who told him to lay up for a few days, The man in question George Semenuk to do this went to Windsor to visit his sister there thinking that he could attend to this trouble there, I might say that we had no report of the Accident till today, but our records shew that we had him employed and paid him by cheque for his labor on December 24th. While in Windsor the foot bothered him so that he entered Grace Hospital, and after remaining there for a time he started for home, reaching Newmarket where he was again forced to go to the Hospital there, he is at present in Bradford but still has to go to the hospital for treatment every two days,

His account at Grace Hospital was \$17.85 and up till now at Newmarket \$89.65, we will appreciate if you will give this matter your consideration and forward necessary papers.

Yours Truly.

Geo. G. Green.

Dear Sir,

Claim 756959

Notice of your accident has been received.

Forms 6 and 8 are enclosed to you herewith.

If you are disabled seven days or more as a result of the accident, please fill up Form 6 carefully, and give Form 8 to your doctor, and have both forms returned to us as promptly as possible.

No action can be taken until we receive these reports.

Yours very truly,

Gentlemen:-

Re Claim No 756959 Geo Semenuk

The situation is this, last fall we were completing our Installation of the Water Works System, and reached the place where we could employ local labor and so help out the Unemployment situation, and so closed up with the Contractors and completed the job.

Semenuk was a local man who was doing a lot of small contraction jobs for himself, I mean by this that he would take a job of installing water on a mans property, we only used him on two occasions and it was on one of these that he had the accident.

The amount of money we paid out for this labor was not included in our estimate for 1931 because we had not an idea at that time that we would be employing labor locally for this work, The amount we have paid out will have to be worked out when the figures for 1931 are compiled.

Yours Truly.

Attention George G. Green

Dear Sirs,

Claim 756959 - George Semenuk

With further reference to the above claim, we would like to know the terms of the arrangement under which Mr. Semenuk was working for you. Did he take the work as a job or was he being paid by the day or hour? When injured was he working under your supervision and control? If so, in what way did you control his work? Did you set hours of work that he had to conform to or could he come and go as he pleased?

Yours very truly,

THE WORKMEN'S COMPENSATION BOARD,

Gentlemen:-

Claim 756959 Semenuk

Ad yours of the 10th inst.

As intimated in some of our correspondance, we were completing the ssystem of Water Works , by some extensions in order to employ some of the unemployed of the Village. And at that time were employing quite a number of men, these men were employed some by the foot and some by the hour, In the case of Semenuk he was employed by the hour, He was I suppose under our control as the Chairman of the Committee had ordered him to open up this drain and to repair the leak, I do not know that any hour was set, he was simply told to do the job, and as it was a leak he certainly could not come and go as he pleased, but was hired to do the job as quickly and as well as possible. The Chairman Mr Gowland certainly laid out the work for him, and was on the job more or less aall the time we were employing the help covering the whole installation.

Trust this is the information you require.

Yours Truly.

Dear Sir :

Claim 756959 - George Semenuk

With reference to your letter of the 28th ult. we understand from the claimant's report that following his alleged accident of December 22nd, the claimant went to Windsor, where his sister lives, thinking he could lay up there, and while there the trouble began to develop. The peculiar circumstance about this case, is that the claimant was apparently placed in the Grace Hospital, Windsor, on the evening of January 5th, by Dr. W.S. Hodgins, 499 Plessier Street, Windsor, and made no mention of the injury to his foot. Dr. Hodgins, in his report to the Board, advises as follows:

"This patient came into my office on January 5th in a very exhausted state. I was unable to get any history from him except that he took ill on the train, so I put him in Grace Hospital that same evening. I treated him for "exhaustion", using stimulant, and he was discharged on the third day". I cannot say whether there is any misrepresentation or concealment in this case, all I know is that he was in a very exhausted state and required medical aid."

What the Board would like to know is the nature of the illness the claimant developed on the train, and to what extent same contributed to his lay off. In other words, on what date was the claimant first disabled as a result of his accident?

Geo. G. Green, Clerk -2-
Corporation of Bradford.

We might add that in a report from Dr. Judge of Bradford, he gives twelve to fifteen weeks as his estimate of the period of disability resulting from the injury, and this is confirmed by Dr. J.H. Wesley, of Newmarket. The latter, in his report to the Board, states that the claimant suffered from a bruised and swollen foot, which broke down and formed a slow healing indolent ulcer over the inner surface of the scaphoid bone, and we would be pleased if you would look into this matter carefully, and advise if you are satisfied that this ulcer developed from the injury, and whether the claimant was a sufferer from ulcers, varicose veins, etc. before the accident happened.

Will you kindly write the Board fully along the lines suggested.

Yours very truly,

THE WORKMEN'S COMPENSATION BOARD

Gentlemen:-

Re Chain 756959 Semenuk
And yours of the 30th Inst

The above named Man has been in Bradford now for over a year, and has become very favorably known as a thoroughly reliable chap and one who is anxious to work, being very faithful and diligent. Originally his people came from I think Poland and he does not speak the King's English tho it very fair. I am of the opinion that perhaps Dr Hodgins misunderstood him when he mentions that he took sick on the train because he spent some days with his sister in Windsor before consulting with him. As a matter of fact Semenuk communicated with me personally while he was in Windsor sick, and I advanced him enough money to reach home. However He was certainly injured and the cold or illness he developed did not contribute toward his accident or lay off because he was discharged from the Hospital at Windsor before the foot really developed. I presume the date of his accident would be the start when Dr Judge advised him to lay off for a few days. I have personally seen the man several times and also his foot which was certainly in bad shape, and there is no doubt as to the accident being the cause of his trouble. I have also consulted with the Reeve who concurs with all my remarks. This trouble certainly was a result of the blow before this he was ready for anything and did not suffer from any leg or foot trouble. And the claim in our opinion is absolutely a just one and he sure deserves help.

Yours Truly,
Geo. G. Green.

Corporation of the Village of Bradford,
Bradford,
Ontario.

Dear Sirs,

Claim 807659 - Fred Jeffrey.

Kindly explain clearly what happened while this workman was engaged at the work he was doing to cause the trouble in his hand; in other words, what was the accident, if any? If no accident occurred are we to understand that the blister developed on his hand from continuous work at the job he was doing; if the latter, for how long had he been doing this particular work before noticing anything wrong with his hand? Did the blister break? If so, what caused it to break? If it did not break how did the infection get into his hand?

Kindly advise if the work which the claimant was doing at the time his accident happened was for the purpose of your business and part of his regular work with you, as we note you omitted to answer these questions on form 7 in the spaces provided for same (second part of question two). What evidence have you to submit that this workman's disability resulted during the course of his employment with your Corporation?

Yours very truly,

THE WORKMEN'S COMPENSATION BOARD,

Gentlemen:-

Firm 210213

And yours of the 23rd inst.

Let me explain the whole situation. Last summer we let the contract to Carroll & Sharpe for the Laying of the Water Mains, this job continued until the fall say November, at which time all the large mains were in. At that time because of the Unemployment situation, this Corporation decided to close the work with the contractors and finish the laying of services by local labor. This is the statement of account which I sent you. All we did was to have the men dig trenches and lay 2" pipe at a depth of from $3\frac{1}{2}$ to 4 feet.

We did not install a pump as this was by tender there was no deep excavation and all the labor we did was land work.

Trust this is the information you require.

Yours Truly.

Dear Sir,

Firm A210213

We wrote to Mr. Weldon Graham at Bradford on April 10th and again on April 20th but he has failed to reply so we must ask you to give us the information we require.

To what extent did your foreman control the employment of Mr. Graham and the men who assisted him in the spreading of the gravel last year?

Did you purchase this gravel from Mr. Graham and was it necessary for him to deliver it at the places specified by you?

Was he required to spread it on the road at-- these points?

Has he a pit on his own farm?

Does he own a farm alone or is the farm owned by him in partnership with another brother?

We are anxious to know how much he paid in wages to those parties who may have assisted him with your work?

Were they the men who usually worked on his farm?

Yourstruly,

Gentlemen:-

Firm A 210213 Graham

In reply to yours of 5th May.

Our Foreman, controlled the entire spreading of the gravel, Graham simply hauled this from the pit and delivered the load where directed.

The Gravel was purchased from Mr James Sloan by the Corporation

He did not spread it except as it was dumped off his truck.

He has no pit on his Farm, which is owned by his Father and his brother works on the farm

Regarding the wages he paid his brother I cannot say, we engaged him to deliver Gravel on our Roads and streets at a price per yard.

I do not know who other than his brother was engaged in loading and of the opinion he had no other help.

Yours Truly.

Employer's Pay Roll Statement 1930-1931

This document is required (under penalty) to be completed and returned to "The Workmen's Compensation Board, Metropolitan Building, 44 Victoria St., Toronto 2," on or before

JANUARY 20, 1931

failing which additional assessment (as well as liability to other penalties) immediately accrues unless on application in writing received on or before that date extension of time is given by the Board.

Return is required to be made even though the industry is suspended or discontinued.

*Additional copies of this form can be obtained
from the Board.*

STATUTORY REQUIREMENTS AND PENALTIES FOR DEFAULT

Copy of Act and Regulations may be had upon request.

Furnishing Pay Roll Statement and Estimate. The Workmen's Compensation Act and Regulations require every employer carrying on an industry in Schedule 1 to furnish to the Board on or before 20th January each year (whether requested or not) a statement, verified by statutory declaration, showing all wages expended during the past year and an estimate of the wages he will probably expend during the current year (*Section 88, Regulation 86*); and the Act requires every Employer commencing or recommending an industry to notify the Board forthwith and furnish an estimate of his probable pay roll (*Sec. 108*). Default renders the employer liable: to pay an increased rate of assessment (*Sec. 88 (5)*); to be assessed at an arbitrary sum (*Sec. 88 (4)*); to a fine not exceeding \$500 (*Sec. 88 (5)*); and to pay compensation for accidents (*Sec. 105*).

Additional assessment of five per cent. of the ordinary assessment is charged if pay roll is not submitted within the specified time, with a further one per cent. for each additional month or fraction of a month that default continues.

Interest at a flat rate of five per cent. is charged for under-estimate below the prescribed limit, and a like percentage allowed for over-estimate.

Keeping Wage Accounts. Every employer is required to keep, within the province, a careful and accurate account of all expenditures for wages (*Sec. 88 (2)*). All Time Books and Wage Records must be kept until checked by an officer of the Board.

Statements and Accounts Subject to Audit. Employers' returns and accounts are at all times subject to audit and investigation by the Board and its officers, and furnishing untrue or inaccurate statements, or refusal to permit examination of books and accounts, renders the employer liable to a fine not exceeding \$500 and to double assessment on any deficiency (*Secs. 88 (5), 90 and 91*).

Work Let to Contractors. Where work in or for the purpose of an industry (e.g., logging, teaming, building, etc.) is let to a contractor, the principal carrying on the industry, if the contractor or sub-contractor has not furnished the Board with a pay roll statement, must add to his own pay roll statement the earnings of the workmen of the contractor and any sub-contractor. He may,

however, be reimbursed from the contractor or sub-contractor for assessment for which the latter would have been liable (*Sec. 9*).

Principals are also required to see that contractors or sub-contractors pay their assessments to the Board, and are liable to make good any default, but are entitled to be indemnified by the contractor or sub-contractor (*Sec. 9*).

Deduction of Excess of Salaries above \$2,000. Where the wages or salary paid a workman exceed the rate of \$2,000 per annum the excess is to be deducted from the amount of the pay roll (*Sec. 96 (1)*). In arriving at the amount to be deducted the workman's total earnings must be taken for the year or the part of the year that he was employed, and the amount at the rate of \$2,000 per year for the period worked deducted therefrom. No deduction can be allowed for any period less than three months.

Members of Family or Relatives. A member of the family or relative of the employer, to be entitled to compensation, must be carried on the employer's pay roll and must be included and the amount of his wages shown in the pay roll statement. This includes wife, husband, child, parent, brother, sister, grandchild, grandparent, stepchild, stepparent, half-brother, and half-sister (*Secs. 10 and 1 (m)*).

Personal Covering for Employer, Partner, or Executive Officer. An employer or a partner or an executive officer of a limited company, if he desires, may, by carrying himself on the pay roll (for full time) at a reasonable salary, not less than \$1,200 a year nor more than \$2,000, and including the amount in his estimate of pay roll for 1931 and stating to the Board that he desires to be covered, put himself in the same position as a workman respecting compensation for accident (*Sec. 11*).

Meaning of "Workman" and "Executive Officer." All employees, whether doing manual labour or not, are covered as workmen under the Act and must be included in return, including clerks, superintendents, managers and Ontario salesmen; but executive officers of a corporation or limited company, that is directors, president, vice-president, secretary, treasurer, of the corporation are not covered, whether working or not, unless they so elect (*Sec. 1 (p)*).

Pro Rata Segregation—Where an employer carries on more than one industry or operations bearing different rates, and has general operations or pay rolls (such as general office, warehouse, teaming, etc.) common to all, the general wages are to be divided proportionately over the different segregations.

September 2nd 30.

The Workman's Compensation Board,
Toronto, Ont.

Dear Sirs:-

We herewith advise an injury sustained by workman named Richard Waller, while working for the Corporation of the Village of Bradford. This injury occurred on the 1st of September. Will you please forward us, usual forms so that we may have his claim properly filed. Thanking you, I remain,

Yours very truly,

Clerk of Municipality of Bradford.

Workemen's Compensation Board

Toronto Ont

Gentlemen:-

I advise a slight injury to a workemen Fred McKinstry of this Village who was injured this A.M. caused by a cement sewer Pipe jamming his fingers, and knocking off some skin, he was dressed by one of the local Doctors, Dr Judge, from what I can learn this will not be very serious.

Will you kindly forward necessary papers. in connection

Yours Truly.

Geo. G. Green.

Clerk.

Municipality of Bradford

Bradford, Ont. April 21st 19 31

Workemen's Compensation Board

Toronto Ont.

Gentlemen:-

Re McKinstry Claim No 762153

I attach report covering the above man and his small accident. This is not a serious affair, and he reports to me that in a couple of days he will be O.K. what happened was that a cement tile slipped and rolled his hand against the bank of the ditch taking off some skin down to the first knuckle of the three fingers on right hand, at present two of these are O.K. and the other he tells me if the Doctor would take the bandage off he could work now, tho it is perhaps discharging a little yet, he thinks in two or three days he will be at work again.

Yours Truly.

Geo. G. Green.

750

\$ 15.00

Dear Sirs:

Claim 762153--Fred McKinstry.

With reference to your letter of the 21st instant, we would advise that we have on file a report from Dr. Judge wherein he states that this workman was unable to resume work until April 25th.

In view of this doctor's report, will you kindly advise if there is anything further you desire to submit respecting this workman's disability and also complete form 9, attached hereto, and return to the Board as soon as possible.

We would also request that you advise what you consider this workman would have earned had he completed a full week in your employ at the work he was doing when injured and at the same time confirm your advice that \$15.00 would be a fair average weekly wage for a workman engaged in the same grade of employment during the past year.

Yours very truly,

THE WORKMEN'S COMPENSATION BOARD.

The Workmen's Compensation Board,
Toronto, Ont.

Gentlemen:-

Replying to your enquiry of the 8th. inst. I beg to say that replying to your questions I am setting them out in the order they appear in your letter.

"What control will be exercised over the cutters?"

The party who owns a piece of timber has arranged with this corporation to employ men who are on relief and not working, the sum of one dollar per day of about 8 hours to cut wood under his direction and supervision, to supply the corporation with their actual time. The wood is green and will not be fit for use before next Autumn at the time of the sale of the wood this party pays the wages of the workmen to the village in cash. In the mean time the village is supplying relief to these work men and while the wages are not very high the ~~tax~~ timber is small of a soft variety and the fellows are satisfied to accept this arrangement rather than loaf and live off the village relief.

We expect there will be about ten or twelve men employed for a period of about a month, or until Spring opens up.

It was ~~was~~ the opinion of our council we should notify your board of this undertaking and in all probability we would like to have these poor fellows protected, provided your board would undertake to do it at a reasonable charge.

Yours Truly,

V. A. SINCLAIR, K.C. CHAIRMAN

Gentlemen:-

Firm ST-47.

We are in receipt of your letter of Feb. 3rd and note that you may place some of the unemployed in the bush to cut wood.

What control will be exercised over the cutters?

Will they be under the supervision of a foreman?

Will they be allowed to cut as much or as little as they please and do the work as and when they please?

How many men do you expect to place in the bush?

How long will the cutting last?

At what rate per hour or per day will you consider that they are paid, for accounting purposes?

Is it your desire to have the men who will be employed in the bush protected under the provisions of the Act?

On receipt of full particulars we can advise you regarding your liability in connection with the woodcutting.

Yours truly,

THE WORKMEN'S COMPENSATION BOARD,

Assessment Officer.
